I am committed to take my years of experience and serve in a positive and compassionate manner. To ensure our city progresses for the benefit of our citizens and homeowners.

Focus on keeping our city a safe place to live and creating new interests and adventures for all age groups. We have a great community of volunteers and a whole city of people with great ideas, I want to hear them. Whether it was securing financing and managing construction for Turner Field as a volunteer or volunteering my time and skills to better our city in other capacities, whatever it takes, I am the man to do it. Tega Cay has so much to offer. It needs a jump start and direction to bring revenue using existing facilities and progressing forward with a keen eye on finances. Let's make our city the #1 place to live for all of us.
